CALL FOR APPLICATIONS AND NOMINATIONS FOR GSA *BULLETIN* EDITORS

GSA solicits applications and nominations of two persons to serve as Editors of the *Bulletin*. The terms of the current Editors will end December 31, 1994, and the new Editors will begin three-year terms at that time. A phased transition should begin in the fall of 1994.

These are not salaried positions, but GSA pays expenses for secretarial assistance, mail, and telephone at the editor's locations and for travel to GSA headquarters. GSA headquarters staff conducts copy-editing and production activities.

Interested persons should submit a résumé and a brief letter describing relevant qualifications, experience, and objectives. Nominations should include a letter and the nominee's written permission and résumé. Applications and nominations should be sent BEFORE FEBRUARY 18, 1994 to:

F. MICHAEL WAHL, EXECUTIVE DIRECTOR
GEOLOGICAL SOCIETY OF AMERICA
P.O. BOX 9140
BOULDER, COLORADO 80301

BULLETIN EDITOR DUTIES

1. Ensure that the *Bulletin* remains one of the premier journals in the geological sciences.
2. Select and maintain an appropriate Board of Associate Editors.
3. Maintain expeditious manuscript flow.
4. Make decisions regarding acceptability of submitted manuscripts in concert with recommendations of reviewers and Associate Editors.
5. Advise authors about necessary revisions.
6. Organize the content and select cover design for each issue of the *Bulletin*.
7. Keep the Committee on Publications and the GSA headquarters staff informed about the flow of manuscripts and other *Bulletin* business.
8. Respond promptly to inquiries from authors and prospective authors.

EDITOR QUALITIES

1. Broad background and active research in the geological sciences with particular emphasis on regional geology (including geomorphology, geophysics, geochemistry).
2. Good organizational skills.
3. Willingness to invest approximately one day per week.
4. Enthusiasm, tenacity, and imagination for future innovations and improvements in the *Bulletin*.
5. Broad knowledge of the geological research activities of scientists both nationally and internationally.
6. Good English language skills.
7. Objectivity.
8. Scientific maturity.
9. Patience, courtesy, tact, and firmness in dealing with authors.
